CURRENT

Danone - Innovation & Productivity PM Intern

Sep 2026 - Feb 2027

Dairy innovation projects, governance, Power BI, tools

PROFILE

ESCP MiM student with experience coordinating projects, building performance reports and dashboards, and working across cross-functional teams in international markets. Interested in innovation project management, governance, performance monitoring, and operational execution within global organizations.

EXPERIENCE

Danone

Innovation & Productivity PM Intern | Sep 2026 - Feb 2027

- + Lead Dairy innovation projects across new products, recipes, formats and productivity initiatives.
- + Plan and track project milestones across concept validation, R&D trials, industrialization and launch readiness.
- + Lead data quality reviews and create visibility on project status, risks and next steps.
- + Coordinate R&D, Marketing, Supply, Quality and Regulatory stakeholders.
- + Support IPROview and Power BI adoption, innovation governance meetings, KPI dashboards and portfolio health insights.

Freelancer, Peora Fashions

Marketing Operations & Performance Analytics Consultant | Jul 2023 - Jun 2025

- + Built Excel and Power BI dashboards tracking acquisition, conversion, advertising, inventory and commercial KPIs.
- + Supported reporting and decision-making across India, the US and Canada for a business portfolio around EUR 68K per month.
- + Developed project tracking systems to monitor performance, identify risks and support prioritization.
- + Led 20+ Canada market expansion initiatives and improved campaign CTR by 25% through structured optimization.

E-mobility Product Development & Research Project

Pune, India | Jun 2022 - Aug 2025

- + Conducted user, infrastructure and market research for a foldable electric mobility concept.
- + Contributed to design iterations, simulation, feasibility validation, patent application and published research.
