APPLICATION DOSSIER

Rugved Naik

Consumer evidence for product, launch and innovation decisions.

Engineer by training, growth practitioner, and EU Dairy Innovation & Productivity Project Management Intern at Danone. I use consumer evidence to clarify what a team should build, say or prioritize.

MAR 2027 Internships from March 2027	**SEP 2027** Apprenticeships from September 2027
APR 2028 Expected ESCP graduation	**PARIS** ESCP Business School

TARGET ROLES

Product Marketing, Consumer Insights, Innovation and Digital Marketing Project Management.

EVIDENCE AT A GLANCE

4,700+ Academic reviews analyzed	**EUR 68K/mo** Primary account across three markets	**-18%** ACoS through experimentation	**12 years** National-level Mallakhamb athlete

AVAILABILITY AND FORMAT

ESCP internship agreement required. Target duration: 6 months. Day-to-day working language: English. French A2, actively improving through regular coursework.

PROOF TO INSPECT

Three evidence types, shown according to what actually exists.

DATED RESEARCH

Collectibility Over Loyalty

Academic project submitted in March 2026. I led quantitative review analysis within a mixed-method netnography across 4,700+ ratings and reviews. The public dossier shows the coding lens, research boundaries and strategic translation without claiming population-level precision.

DELIVERY UNDER CONSTRAINT

Building the Team Before Building the Vehicle

Captain and Head of Engineering Design for Team Abhedya. Grew a five-person group into 24 members plus me, managed an INR 1.75M budget, approximately EUR 19K at 2023 rates, secured INR 0.8M in sponsorships, and delivered in four months. Ranked 15th overall at BAJA SAEINDIA 2023 and 4th overall at ATVC 2023.

DEVELOPED ARTIFACT

Face Architecture

Winning team among 20 teams in the 2026 ESCP x LVMH Fragrance Brands Case Challenge. The team won with the core concept; the online dossier shows how I later extended it into a fuller product, visual and experience system.

METHOD IN PRACTICE

Miutine: observe 4,700+ ratings and reviews; separate object signals from identity signals; name the distinction between Object Value and Identity Value; translate it into collection logic; state that review data overrepresents purchase, unboxing and early ownership. The framework applies Belk's extended-self research and Appadurai's work on the social life of things to a practical launch decision.

CURRENT ROLE

Danone, EU Dairy Innovation & Productivity. Project Management Intern, September 2026 to February 2027. Supporting European dairy innovation and productivity projects across milestones, cross-functional coordination, data quality, Power BI, governance and portfolio health.

DOSSIER INDEX

Six real projects and two independent thinking exercises.

ACADEMIC PROJECT

Collectibility Over Loyalty

Consumer research, market reading and a dated evidence trail.

TEAM LEADERSHIP

Building the Team Before Building the Vehicle

Product delivery, organization design and technical trade-offs under constraint.

FREELANCE CLIENT WORK

Making Availability Visible

Amazon advertising, inventory, organic visibility and commercial response.

FREELANCE CLIENT WORK

Listing Conversion Systems

Customer doubt, marketplace proof and conversion infrastructure.

FOUNDER VENTURE

Foldable Electric Mobility Product

Patent-linked research and a 2024 peer-reviewed paper, DOI 10.4273/ijvss.16.1.08.

CASE COMPETITION

Face Architecture

A Gen Z beauty venture grounded in Givenchy couture heritage.

INDEPENDENT METHOD TEST

Testing Premium Value Through Marketplace Evidence

A 100-listing Amazon analysis of interpretation, premium value and trust.

INDEPENDENT ANALYSIS

What AI Can't Personalize

Adaptive discovery, brand memory and protected cues inside personalization.
