APPLICATION DOSSIER

Rugved Naik

Product marketing built on customer understanding.

From what people are solving, to the message, to a launch teams can execute. Engineer by training, with growth and marketplace experience, and now an EU Dairy Innovation & Productivity Project Management Intern at Danone.

MAR 2027 Internships from March 2027	**SEP 2027** Apprenticeships from September 2027
APR 2028 Expected ESCP graduation	**PARIS** ESCP Business School

TARGET ROLES

Product Marketing, Innovation Project Management and Innovation Product Management.

EVIDENCE AT A GLANCE

4,700+ Academic reviews analyzed	**EUR 68K/mo** Primary account across three markets	**-18%** ACoS through experimentation	**1,000+** Canada listing elements localized

AVAILABILITY AND FORMAT

ESCP internship agreement required. Target duration: 6 months. Day-to-day working language: English. French A2, actively improving through regular coursework.

PROOF TO INSPECT

Three decisions, each supported by the evidence that actually exists.

POSITIONING CASE

Testing Premium Value Through Marketplace Evidence

An independent analysis of 100 Amazon US listings using Helium 10 estimates. It turns category evidence into a target audience, job to be done, core claim, proof points, objection handling and message test, while stating the data boundary plainly.

CUSTOMER INSIGHT

Collectibility Over Loyalty

Academic project submitted in March 2026. I led quantitative review analysis within a mixed-method netnography across 4,700+ ratings and reviews. The public dossier shows the coding lens, research boundaries, decision test and strategic translation without claiming population-level precision.

LAUNCH DELIVERY

Building the Team Before Building the Vehicle

Captain and Head of Engineering Design for Team Abhedya. Grew a five-person group into 24 members plus me, managed an INR 1.75M budget, approximately EUR 19K at 2023 rates, secured INR 0.8M in sponsorships, and delivered in four months. Ranked 15th overall at BAJA SAEINDIA 2023 and 4th overall at ATVC 2023.

METHOD IN PRACTICE

Miutine: observe 4,700+ ratings and reviews; separate object signals from identity signals; name the distinction between Object Value and Identity Value; translate it into collection logic; test a collection-led proposition against a conventional signature-scent proposition; bound the claim by stating that review data overrepresents purchase, unboxing and early ownership.

CURRENT ROLE

Danone, EU Dairy Innovation & Productivity Project Management Intern, September 2026 to February 2027. Supporting European dairy innovation and productivity projects across milestones, cross-functional coordination, data quality, Power BI, governance and portfolio health.

DOSSIER INDEX

One argument, three proof types.

ACADEMIC PROJECT

Collectibility Over Loyalty

Consumer research, market reading and a dated evidence trail.

INDEPENDENT VENTURE

Foldable Electric Mobility Product

Patent-linked research and a 2024 peer-reviewed paper, DOI 10.4273/ijvss.16.1.08.

INDEPENDENT ANALYSIS

Testing Premium Value Through Marketplace Evidence

A 100-listing Amazon analysis translated into a positioning and launch brief.

CASE COMPETITION

Face Architecture

A Gen Z beauty venture grounded in Givenchy couture heritage.

FREELANCE CLIENT WORK

Listing Conversion Systems

Customer doubt, marketplace proof and conversion infrastructure.

TEAM LEADERSHIP

Building the Team Before Building the Vehicle

Product delivery, organization design and technical trade-offs under constraint.

FREELANCE CLIENT WORK

Making Availability Visible

Amazon advertising, inventory, organic visibility and commercial response.

IN PROGRESS

What AI Can't Personalize

An explicitly unfinished analysis of adaptive discovery, brand memory and protected cues.
